

Industry Business Network 4.0 e.V. • Rudolf-Diesel-Straße 16 • D-86825 Bad Wörishofen

To whom it may concern

Dear sir or madam,

with this letter we confirm that the company **Eckert AS Sp. z o.o.** (represented by Mr. Rafael Eckert) is member of the Industry Business Network 4.0 e.V. association.

In the association innovative European small and medium-sized enterprises (SMEs) as well as the TÜV SÜD and the Fraunhofer Society IGCV work together to establish cross-vendor standards for the digital connectivity of machines and components in a smart factory. Thereby, an open approach is an indispensable prerequisite to achieve the desired interoperability for Industry 4.0. The goal of our association is that European SMEs define and implement these required standards to retain their strength in the global market not only on the technical level, where many European SMEs are already market leaders, but also on the digital level, enabling SMEs to keep up with the growing international competition and to establish new digital business models.

Best regards,

Igor Mikulina
(Chairman of the Board)
